

COVID-19 Care Plan

HRS PatientConnect Mobile: COVID-19 Symptom Survey

Following the outbreak of COVID-19, HRS' Clinical Advisory Board responded quickly to develop a set of best practices for the screening and treatment of patients, while keeping healthcare providers as safe as possible. On March 10th HRS launched its COVID-19 Clinical Pathways, which include:

Daily Survey Screenings

Patient Educational Videos for Prevention & Treatment

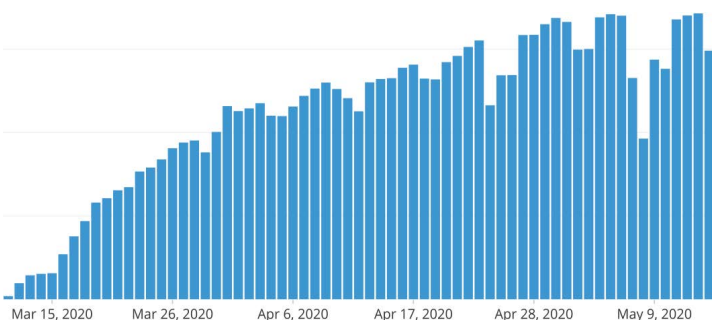

Surveillance Modules for Temperature & Oxygen Level

Best Practices for Virtual Visits

HRS clients across the country have enrolled thousands of patients in the COVID-19 Care Plan. HRS clients are leveraging the full suite of HRS' telehealth solutions, including PatientConnect Complete, Core and Mobile to respond to the COVID-19 pandemic. These graphs show data from HRS clients on their use of the COVID-19 Clinical Pathways.

Number of Patients Answering COVID-19 Survey Questions Per Day
